- Predictors of Possible Future "Near Future" Events
The Perpetrators will try through their stalking method

Now that I'm clipping my back pack they'll
try a assault either a bus stop on the bus
or when I leave the attorneys office -

They'll try this assault thing from Basker
! at the bus stop I go to leaving the attorneys
probably approach me w/ dialing the numbers
or they will just jump me without saying anything
since I have a tape recorder -

They want my back pack because they know I
have been spending days working on paper work
in my tent - They are getting very desperate by
their increasingly direct conversation tactics that
are mentioned in the background tactics that I found
on the internet - They may also use my mother to relay
me some tactics come in so I'll either go to the topic
them up or so that she can get my ID, Box ~~for~~ the state
so they can find me so it won't directly involve the post office
giving - My mom being the buffer for the state -
O'Day may use Lehigh's forwarding mail to new P.O.s
to get my address to new P.O. Box -
