Due to the fact that many blogs were written in January, February and March about mail theft, landlord being used and them seeing that their other methods are not enough they may try something at the bank that they already have done with 10 of my Digital Voice Recorders - They deliberately changed the digital date of a Audio File that concerned Henry Ford Community College and a Audio File of me being at Ardycer on the same date - They changed it from August 2009 to January 2009 - They also changed the Digital Dates on the files with Kate & Roseo. - Item I can prove this by what's on the tapes and Receipts - Now since their methods are not working and also since I have blogged about landlord, mail theft at Post check grocery store locations and library locations used for productions - They will have to try to use my bank to steal a portion or all of my check for production purposes and to deliberately create the stage for homelessness so future staged incidents can be used - trespassing - Campsite and for emotional distress - How can they steal my money from my bank, they can use the video from me withdrawing funds on March 3rd 2010 for April 2010 withdrawal and just change the digital date on the video - Covert Tactics are what they use, Remember I was verbally guesed about this on 02-10-10 @ Krogers by them -
