Targeted Individuals (TIs) and extremists' domestic terrorism gained national attention yesterday due to San Antonio's Joe Conger, KENS 5 News, Dr. John Hall and San Antonio police department that took the human target, Cynthia Vurbeff incident reports with integrity according to Conger, reporter for KENS 5.

### TIs tortured in houses of horrors

Domestic terrorism has been well-hidden by mainstream press, despite hundreds of reports sent to it describing the atrocity being committed on U.S. soil with immunity and impunity.

According to emails circulating yesterday, surviving TIs throughout the nation are grateful beyond measure to Mr. Conger and KENS 5 for their February 17 report, "Stalked, drugged and raped: Is It Happening in San Antonio?"

Conger reports Vurbeff saying that her home has become a "house of horrors" and quotes her saying, "I feel that I've lost my mind, lost my life."

"Incident reports from law enforcement tell the tale: Numerous break-ins at the address. She suffered vandalism to her car, motorcycle and computer," writes Conger, all the typical treatments targeted individuals in the U.S. and abroad get, plus more.

Vurbeff told Conger the same thing TIs consistently report to no avail, "Everything... They just went through everything."

Coinciding with the so-called "war on terror," rudimentary data shows that the domestic terroristic treatment of innocent targeted individuals increased exponentially since September 11, 2001. That is when the Bush administration's secret domestic terror floodgate was opened wide open in the U.S. according to over 500 individual reports of injured American survivors still well enough to communicate.

As in many other cases, the San Antonio sheriff's detectives reportedly "had little to go on, because the vandals --

though often destructive -- stole nothing. Even from her portable safe, drilled into and torn apart, the contents -- the jewelry -- remained untouched," writes Conger.

Vurbeff experienced someone telling her that she would be harmed according to the news report. Such warnings, often seeming too bizarre to understand at the time, is another tactic used on and reported by TIs.

Conger writes:

**“ Vurbeff says her troubles didn’t start until she met two men.**

**One would become her ex-boyfriend; the other was his partner in a San Antonio pain clinic, Dr. John Hall.**

**Vurbeff said: “The very first time I met him, we went to his house on the Fourth of July, and he told me that because I was already there in his house, that I would be the next victim, that I would be stalked.”**

**Vurbeff found the doctor’s prophecy to be correct. She suffered months of oddness:**

**Lights left on. Doors open. Furniture moved. Her clothes dryer disassembled. Her friends said they noticed the strange happenings. They tell the I-Team they even witnessed a gas oven left turned on.**

**“As soon as you walked in the house, you smelled gas,” one friend said. “The whole house smelled of gas. Immediately turned it off, opened up the doors, but that thing doesn't turn on by itself. And it had been running a good length of time.”**

**Another friend said she and Vurbeff were stalked at a mall.**

**Assaults including rape due to no support by Coincidence Therorist family, friends and 'caring' professionals**

In many of these TI cases, targets are abandoned, left out in the cold alone to try to survive due to disbelieving "Coincidence Therorist" family, friends and even professionals in the caring field that offer no support or protection.

As with other such cases, Verbeff's experiences left her vulnerable for her eventual assault, rape.

According to self-support groups reports of women struggling to survive this domestic terror, the 39-year old San Antonio woman's experiences were consistent: Someone "drugged the food in her home and returned later to rape her," reported Conger who adds that she "filed a report and was briefly hospitalized with signs of sexual assault."

Dr. Hall calls Vurbeff experiences "gang stalking," a term causing strife among many TI survivors who detect applied FBI Cointelpro tactics plus military grade weapons that are now deployed to the Department of Justice.

Dr. Hall is author of, "A New Breed: Satellite Terrorism in America," a book in which he boldly describes his personal experiences of being a target of the domestic terrorism covertly sweeping through the nation's communities.

Conger reports that "others in San Antonio have contacted the I-Team and described similar types of occurrences."

"Linda Johnson says someone poisoned her water supply with heavy metals in northwest San Antonio. Then, there's the story of the bracelet that went missing, and then reappeared."

"Police, she says, have stopped listening to her. And like Vurbeff, she, too, believes she's been sexually assaulted, although she never filed a police report.

"Johnson said: 'I've been to doctors many times, and I've been to the rape crisis center, yes.'"

A New York attorney reports that one in ten police complaints are by victims of this extremist cell operating in the U.S.

"This isn't stalking that's done by former spouse, or former boyfriend or someone you know is disgruntled at you, but stalking that's done by a total stranger in an organized fashion," Dr. Hall said.

### High-tech weaponry remotely applied to property and person

Hall clarifies in his book that he believes that **well-organized-operatives are using government satellite technology to terrorize victims. Visible injuries are otherwise inexplicable.**

John Conner writes in the March 2010 Sovereign newspaper front-page story that "Homeland Security-administered **fusion centers are using a nationwide microwave/laser electromagnetic radiation, a "directed energy weapon system to silently torture, impair, subjugate unconstitutionally "targeted" Americans and their families..."** (The Sovereign, U.S. Silently Tortures Americans with Cell Tower Microwaves, John Conner, Issue 9, March 2010)

KENS 5's Conger quotes Hall saying that targets are "all voicing the same complaints: organized stalking, weird, electronic disturbances going on in their homes. Most of the women complain of drugging and sexual assault. It's a big national problem."

That national problem source according to Conner, is apparently dozens of U.S. Department of Homeland Security administered 'fusion centers' used to silently and invisibly torture, impair and subjugate targeted individuals.

Conner explains that most TIs "have no idea what is making them sick, tired, exhausted, irritable, confused, lethargic; plagued with painful, debilitating head and body aches and sharp, piercing, painful ringing tones audible only to the target; suffering from temporary or permanent cognitive impairment leaving them unable to function normally."

As with most targets able to acquire information about the crime they are experiencing, when Vurbeff first read about the cause of grief, it "caused her stomach to turn" because of the "similarities to her own situation," Conger reports.

"Vurbeff said: 'I pulled out the book and I started reading it, and I'm like, 'Oh my God, that's exactly what's happening to me,'" reported Conger. It was Dr. Hall's book that she was able to access and read.

Conger writes that San Antonio police reports indicated a 2007 rape still under investigation that occurred "in the same quad of condos where one of Dr. Hall's girlfriends supposedly lived," and that Bexar County detectives say Vurbeff's assault case also remains open.

Law enforcement will not and cannot say whether Dr. Hall is even a person of interest according to Conger, learning what TIs throughout the nation and beyond report when trying to learn why they are being precision targeted with military grade weapons and kept under what constitutes extremist foot soldier "surveillance."

Dr. Hall alleges to have been targeted by the same extremist groups as Verbeff including fellow doctors and the Texas Medical Board for blowing the whistle on the criminal activity. He then faced the standard white-coat bogus diagnoses of "probable delusional disorder" and ordered psychiatric treatment that whistleblowers consistently report.

Another tactic targeted individuals consistently report is being drugged, effective for subsequent rape, confinement for illicit drug-related charges, or loss of career. Operatives drugged Dr. Hall with cocaine periodically to ensure he would lose his medical license.

Now with medical license reinstated, Dr. Hall has appeared on cable TV shows, late-night radio and is developing his own radio program.

While San Antonio police and Bexar County Sheriff's deputies say they continue to investigate Verbeff's case, Conner highlights that within President Obama's first 100 days in office, he federalized most local police departments so that most police now take direct orders from Janet Napolitano's U.S. DHS and "have been told to stay silent about the attacks," sworn to secrecy on "national security" grounds.

To date, no police or sheriff is known to have broken those orders.

No major human rights group has offered to advocate for the ever increasing population of human targets, despite their pleas for help to survive.

Dear Ms Worthy...

I sent you a email last friday,,,I am reaching out to civil agencie's federal and international to try and help you in the effort of thruth.

I dont understand why civil servant's aren't saying I will not compromise thruth just to save a headache.and their must be a headache somewheir,because im not getting the help and justice i deserve.I have been the victim of clever craziness,and since I cannot prove it or afford a highpowered attorney,it appears their getting away with it.

I met michele wise ~~at a meeting in dearborn Michigan~~ in dearborn Michigan,at the time I had undiagnosed learning disabilities that spinned my recovery from alcoholism / \_\_\_\_\_ into utter chaos, I did some thing's"Im not proud of as a result.

I have 2 learing disabilitie's and it was'nt until 3.5 yrs that I became aware the 1'st and 2'nd weretotally interfferring with my ability to conceptualize te 12 step's so I went to the libary and did everything a responsible individual should do to be responsible for their own recovery.I asked Miochele to be my sponser right after I found out about my first learning disability.

Im going to send you email's tat are disjonted in time reference to their history,due to a time schedule avaiability I ahve in this new situation.

Michele and dennis wise,Pat Robertson bruce peterson Mari france's worgolia on parker street in dearborn,they all played a direct role in note onle sabotaging my recovery bey deliberately keeping people from supporting me but used people at meeting to first smile and gain my trust/and then palyed deliberate mind game's with me to my face to push my button's.

I stopped going to the meeting,But about 1.5 years before I got the program and before they did thing's right in fronnt of my face,and before I realized tehyy wre keeping people away as a mean's of direction and support they cohersed me into me giving control of my money over to Pat Robertson/~~of a meeting in dearborn Michigan~~ and I told Pat R that I was scared of losing my place,he already had my landlords address and phone #,they decided to move in below my upper flat on dearborn street,and got a person by the name of Jim Krupar to get me out of the hoieuse while they moved in.

He'd entice me hey want to rent a movie go to taco bell they knew I was lonely because they kept the support away from me.after they got situated,~~and I had to find a way to get out the house,he even~~

After they got situated Jim deliberatley started acting like I was a problem.

So I had to go back to the lonliness of my home were they were ready for the next statge.Wheir they played endless mind games to ~~get rid of section 8~~, first they wanted to get rid of section 8 then their plan's are to keep up the game s until I get petitioned into the phychiatric ward until the state step's in which I beleive they planned on reinserting their availability inbetween.

I ve been qued along those lines verbally by member's of their group in bathroom's at u of m. Their is a complete and detaikled history that clearly show's the connection of the dot's along with some physical proof to support it.

Whould you please help me ,

And maybe put yourself in my shoe's whould you give your control over to someone who tortured you than took control of your life when you reached out for help from the torture and was told that what happened to me was'nt real that your cfrazy.I will not wed and bed a faceless person from AA who I'll alway's wonder was he part of the torure.
